Winter 2019 Schools and Youth Centres
Education Programme

The Schools and Youth Centres Education Programme at Sharjah Art Foundation offers a variety of workshops and field trips for schools and youth centres, all led by professional artists. Designed for participants aged 7 to 17, the programme aims to discover participants' talents, enhance their technical skills and enrich their knowledge of art while simultaneously building their self-confidence.

Interested schools and youth centres can select the workshops, excursions, dates and times that are most appropriate for them. Workshops usually meet at the Collections Building in Arts Square and last from two to three hours. Sessions can be conducted in Arabic and/or English, depending on the needs of the participants. The Schools and Youth Centres Programme for winter 2019 runs from 30 December 2018 to 28 February 2019.

Sharjah Art Foundation is committed to making its programmes as inclusive and accessible as possible. Disability access symbols are included in all Education and Community Programme descriptions to indicate the accessibility of individual sessions.

WORKSHOPS

Workshop: Walk, Imagine and Draw
SAF neighbourhood
Ages: 7+

In this workshop, participants will visit neighborhoods adjacent to Sharjah Art Foundation spaces and draw objects of their choice (other than plants and other natural features) in a special drawing book. They will learn how to document the beautiful moments they experience and the beautiful things they see without resorting to photography.

Workshop: All Things Are Framed
Collections Building, Arts Square
Ages: 7+

In this workshop, participants will use various materials such as tree leaves, threads and other items to create an artwork within a ready-made frame.

Workshop: Anamorphic Sculptures
SAF neighbourhood and Collections Building
Ages: 15+

In this workshop, participants will first gather materials outside Sharjah Art Foundation spaces and then suspend them from a frame attached to the ceiling. They will arrange the materials in a layered pattern that will produce a word or image only when the work is viewed from one angle. If viewed from other angles, the work will appear to be a group of objects suspended in a random pattern.
