SHARJAH ART FOUNDATION

AL DHAID PALACE

LOCATION

Activated for the Sharjah Biennial 15, Sheikh Khalid Bin Mohammed Palace stands out from other venues because of its swimming pool and nearby date palm orchard. Situated on higher ground than its surroundings, the restored palace offers visitors a unique view of the neighbourhood. It was started in the mid-twentieth century by Sheikh Saqr bin Sultan Al Qasimi and completed in the 1960s by his successor, Sheikh Khalid Bin Mohammed Al Qasimi. The palace offers a spacious interior with multiple rooms and a charming open-air courtyard, making it an ideal venue for small weddings, receptions, dinners, community events, lectures, conferences and small meetings. It provides a majestic backdrop for social gatherings, photography sessions and film productions.
