AL HAMRIYAH VENUES

[LOCATION](#)

Overlooking the coastline, Al Hamriyah Studios opened in 2017 at the site of the old Al Hamriyah market. Each studio was once a group of shops in the original market. Spanning 2510.8 square meters, the area serves as a creative hub for artists to focus on creating work while fostering collaboration with fellow artists. Landscaped with local trees and plants, the studios boast a communal courtyard with a captivating, starlit atmosphere, providing a versatile space for public gatherings such as receptions, small outdoor weddings, outdoor film screenings, performances and workshops. It is also an ideal location for film and photography.

OLD AL DIWAN AL AMIRI

Neighbouring Al Hamriyah Studios is Old Al Diwan Al Amiri, a recently decommissioned structure that once served as the rulers court. An integral component of Sharjah Biennial 15, the venue is a site for spatial conversation and artistic experiments exploring permanent and impermanent structures. The Old Al Diwan Al Amiri features a darkroom (a unique facility in Sharjah and the Northern Emirates), which is available for use by local craftsmen, artists, photographers and the broader community. The space comprises a central hall and multiple rooms suitable for workshops, outdoor and indoor gatherings, private corporate events, receptions, outdoor film screenings, seated dinners, lectures and conferences.
